EXPERIENCE

Full Stack Engineer Sep 2024 – Present
Libautech | Liepāja, Latvia (On-site)
Stack: React, Next.js, Node.js, Express, MongoDB, Shopify, Rust, CI/CD

Mid-level Mar 2025 – Present

- Migrated and refactored 7 standalone apps to a modern unified architecture, improving performance and maintainability and qualifying them for "Built For Shopify" standards.
- Designed a workaround for Shopify's customer-facing bundle size limits (10KB → 100KB), enabling Preact adoption with a custom build pipeline.
- Set up Jenkins to deploy production from GitHub pushes to the prod branch; maintained the pipeline and handled failures/debugging.

Mar 2025

Junior Sep 2024 – Mar 2025

- Rebuilt a legacy Shopify app on a modern stack, migrating deprecated APIs to Shopify's latest requirements and UI standards. Shipped new version and migrated existing customers with minimal disruption.
- Heavily contributed in building shared frontend and backend packages to unify repeated code across 7 standalone apps. Continued maintaining and evolving the shared packages throughout my employment.
